

SAITEC Engineering is a technical consultancy company active within the infrastructure and transport sector providing a wide range of services to our Clients from early planning to detailed designs and construction supervision aims to reach the following goals within our Strategic Action Plan:

- To achieve highest Client satisfaction and acceptance of the services with emphasis on timely and quality oriented services.

The achievement of these objectives is based on the development of an integrated management system, which can be summarized in the following guidelines:

- Offering timely and quality focused services that meet and exceed Clients expectations.
- Meeting legal, regulatory and voluntarily subscribed requirements, at all levels.
- Adopting the culture of Continuous Improvement in all our activities, services and products.
